COVID CENTRE AT BARBHAG COLLEGE

From 25.05.2020 to 15.01.2020

Since February, 2020 the world saw one of the worst ever disasters in human history following the onset COVID-19. Like most of the places in the world, the entire area surrounding the college was affected by COVID-19 and scores of people fell seriously ill. Beds in govt. Hospitals were fully filled up and there was no space to admit more patients. The college authority, on receipt of a request from the government, offered to allow portions of the college buildings as Quarantine Centre. Since 25.05.2020, the college was used as a quarantine centre. A few teachers and students volunteers helped the govt. officials in setting up the centre. The Principal of Barbhag College acted as the centre-in-charge. One hundred COVID-patients were kept in the centre and treated at the govt. Initiative. The centre continued to function in the college for eight months. This decision of the college to offer facilities of the college to community people in times of their dire need was in keeping with the commitment of the college to its social responsibility.
